

## **SYCARA IV Presented World Superyachts Award**

**Manitowoc, WI, U.S.A.** - Burger Boat Company is proud to announce that **SYCARA IV**, its 151'-03" (46m) Fantail Motor Yacht, has been awarded the *Judges' Special Award*. The 2010 World Superyachts Awards gala was held at London's prestigious Guildhall Saturday May 22, 2010.

More than 500 of the superyacht industry's leading professionals, superyacht owners, and their personal guests from all over the world flew into London for the event, honoring the best of the best in superyacht build and design.

The *Judges' Special Award* recognizes the detailed manner in which her builder, Burger Boat Company, and her designer, Ken Freivokh faithfully created the owner's vision of a classic motor yacht from the 1920s to remarkably high standards of design, construction and engineering, without the necessities of modern life impacting on her true-to-period atmosphere. The judges considered the result to be a vessel of the highest quality.

Recapturing the splendor, grace and charm of a bygone era **SYCARA IV** represents Burger's continued commitment to designing and building custom yachts to meet their owner's specific requirements and desires. Styled after the classic yachts of the 1920's, **SYCARA IV** brings together an impressive collaboration of "high profile" experts. These include her owners, with their extensive yachting experience and yacht building knowledge; Steven Narkawicz, their highly experienced and talented project manager; Bruce King, with his classic schooner bow and fantail; Ken Freivokh, who designed her interior spaces and exterior detailing; and Burger's team of designers, engineers and craftspeople.

Burger Boat Company designs and builds custom yachts, in aluminum and/or steel, ranging in sizes to 200' (60m). Since 1863 Burger has been recognized internationally for design, quality construction, seaworthiness, reliability and is the most respected custom yacht builder in America.
