

**Press Release for
regs4yachts/Professional Yachtsman's
Association**

The PYA and yacht consultants regs4yachts are pleased to announce they have come together to provide all PYA members web-based access to regs4yachts Standard Digital Maritime Regulations service at a ground-breaking price of £300 excluding VAT. This is a reduction of almost 25% on the normal price and will give PYA members access to the latest up-to-date and searchable database of the regulatory information which applies to the yachts of the Red Ensign, Malta, or Marshall Islands flags.

This is an important new service for PYA members which ensures they can maintain their professional knowledge of the Flag State regulations which apply to commercial yachts, whilst also fulfilling due diligence obligations to yacht charterers, passengers and crews. Visit www.regs4yachts.com for more details of regs4yachts services.

To apply for this generous offer simply e-mail sales@regs4yachts.com with your name, address and PYA membership number and details of how you want to pay (card, cheque or BACS/wire transfer)

Regs4yachts is also offering the PYA office free access to the Standard Internet Package to assist them with up to date information.
