

Just launched

# World Register of Ships

The new flagship in global vessel information  
from IHS Fairplay and IHS Jane's

## Tactical Maritime Surveillance Support on the Bridge or in a Command Centre

IHS is pleased to announce the launch of a new service combining the strength and resource of two key IHS brands, IHS Jane's and IHS Fairplay, both with unrivalled expertise in enabling rapid ship recognition.

**World Register of Ships** has been created in response to requests from our National Security customers to combine Lloyd's Register of Ships from IHS Fairplay with Jane's Fighting Ships into one simple and intuitive database.

**World Register of Ships** enables you to:

- Recognise and identify ships at sea
- Classify encountered ships
- Assess maritime risk factors
- Inform the Recognised Maritime Picture
- Stay up to date with the latest warship capabilities
- Watch for programme changes and emerging requirements
- Make informed decisions when evaluating new technology and systems

**World Register of Ships** contains up to 300 data fields on 177,000 merchant and 12,000 military ships in one handy database, as well as images, saving you time identifying ships.
